superb fairy wren

baby bell minor

eastern yellow robin

purple swamp hen

black-faced cormorants

These Sapphire Coast birds have been made from 'Southern Ice Porcelain' over a period of 12 months.

Each bird is made by hand and involves more than 10 processes from making the model, mould and slip, slip casting, joining through to firing, sanding and polishing. Some have been stained with a colour and all pierced.

The cockatoo comes with a recycled Australian hardwood stand and he can be slotted in either way.

Single birds \$225

Cockatoo in stand \$275
